

Carpet Textile Logo Mat

Care Guide

- Our custom printed Carpet Textile Logo Mats are made from a high twist nylon pile with a nitrile rubber backing.
- Mats with or without borders are fully machine washable at 40°C.
- We recommend that you use detergents that do not contain Optical Brightening Agents (OBA's), which can mask the true shade of colours.

Cleaning and Care Instructions

Launder the mat on its own using the shortest 40°C washing machine cycle possible.

Tumble dry at a maximum of 80°C for no longer than 10 minutes.

Do not over dry. This can affect the absorbency of the carpet fibres, making it less absorbent.

Remove the mat immediately from the dryer and lay flat. Allow the mat to cool before rolling.

Do not fold the mat to store it, as this can cause the backing to crease and crack.
